Wrist Arthroscopy

TRAINING ON ANATOMICAL SPECIMEN

COURSE DIRECTORS
C. MATHOULIN F
M. HAERLE G
P. LIVERNEAUX F
Wrist Arthroscopy has been used for 20 years as a diagnostic test. Over the last 15 years, we have seen dramatic developments in its therapeutic application. Wrist arthroscopy is an important skill for hand surgeons, exactly in the same way as shoulder and knee arthroscopy is crucial for orthopedic surgeons. This difficult technique has to be taught using cadavers and specialized instrumentation so that surgeons learn arthroscopic techniques in a stepwise fashion.

FACULTY

Announcement for 2016 practical courses
February 19 and 20  Basic course
November 25 and 26  Advanced course

With the support of:

These courses have been made possible thanks to the technical and financial support of Karl Storz Endoskope
This course has 34 participants working on 17 surgical tables supervised by more than 17 European experts in this field, i.e. 1 expert for 1 table. Each table is fully equipped with a STORZ camera of 2.4 mm attached to a video system. Each video system is connected to the course director’s table who performs live demonstrations before participants start the procedures themselves. This course is intended for all surgeons interested in hand surgery and in particular in wrist surgery. Attending this course should allow participants to practice wrist arthroscopy competently and safely.

FRIDAY
FEBRUARY 20

MORNING
8.00 AM
Registration and welcoming of participants

8.30 AM
LECTURE 1
- Wrist Arthroscopy Anatomy
- Portals

9.30 AM
PRACTICAL 1
- Exploration of normal wrist joint
- Synovectomy, removal of foreign body

12.30 PM
Lunch at the Institute

AFTERNOON
1.45 PM
LECTURE 2
- Resection of wrist ganglion
- Styloidectomy

3.00 PM
PRACTICAL 2
- Resection of wrist ganglion
- Styloidectomy

6.15 PM
End of session

8.30 PM
Dinner with participants and faculty members offered

SATURDAY
FEBRUARY 21

MORNING
8.30 AM
LECTURE 3
- Principles of TFCC repair
- Distal resection of the Ulna

9.30 AM
PRACTICAL 3
- Principles of TFCC repair
- Distal resection of the Ulna

12.30 PM
Lunch at the Institute

AFTERNOON
1.45 PM
PRACTICAL 4
OPEN WRIST INDUSTRIAL SESSION
- Distal radius session
- Trapezius implant
- Total wrist prosthesis
- Other techniques

4.30 PM
End of course
Delivery of certificates of attendance
