EWAS Session at 2016 FESSH Congress

25 Jun 2016 (Sat) 8:00am – 1:00pm  Sardinero room

**WRIST ARTHROSCOPY: from BASIC to the UNRESOLVED**

**A. Welcome & Introduction** (8:00-8:05am) (5 min)  (PC Ho, Jan-Ragnar Haugstvedt)

**B. Clinical Case Challenge** (8:05- 8:30am) (25 min)
(Chairperson: Jane Messina, Jeff Ecker)

- 4 cases, each 6 min, including 2 min presentation + 4 min discussion

**C. EWAS Symposium I - Basics of Wrist Arthroscopy- first step leading to success** (8:30-9:15am) (45 min)
(Chairperson: Guillaume Herzberg, Eva Maria Baur)

- Arthroscopic anatomy – revisit (7+2 min) (Jan-Ragnar Haugstvedt)
- Clinical examination approach for ulnar wrist pain (7+2 min) (PC Ho)
- Clinical examination approach for radial and central wrist pain (7+2 min) (Guillaume Herzberg)
- Does MRI help in the wrist in 2016? (7+2 min) (Peter Jorgsholm)
- Clinical correlation of history, physical signs and investigations with arthroscopy (7+2 min) (Dominic Dovenport)

**D. EWAS Symposium II - Diagnostic Role of Arthroscopy- What is abnormal?** (9:15-10:00am) (45 min)
(Chairperson: Diego Fernandez, Alejandro Badia)

- Assessment of SL instability: what counts, what to compare? (7+2 min) (Fernando Corella)
- TFCC Injury and DRUJ instability: are they the same? (7+2 min) (Shohei Omokawa)
- Extrinsic ligament injury: do they exist? (7+2 min) (Luc Van Overstraeten)
- Soft tissue injury associated with fracture (7+2 min) (Mark Henry)
- Arthritic assessment- how bad is the cartilage? (7+2 min) (Hermann Krimmer)

**E. Tea Break** (10:00- 10:30am) (30 min)

**F. Whipple Prize Session** (10:30 – 11:00am) (30 min)
- Introduction & award giving (3 min)  (PC Ho, Jan-Ragnar Haugstvedt)
- Whipple's Lecture (25 min) (Lee A Osterman)

**I. EWAS Free Paper Session FP22** (11:00- 11:40am) (40 min)
(Chairperson: Michel Levadoux, Henk Coert)

- A-0145 Arthroscopic evaluation of regeneration of the TFCC after ulnar shortening procedure
  Toshiyasu Nakamura, Koji Abe
  International University of Health and Welfare, Sanno Hospital, Tokyo, Japan
  5 min + 2 min discussion

- A-0063 Radiofrequency Energy does not reach appropriate temperature level for substantial shrinkage of Scapholunate Ligament: A Cadaver Study
  Michaela Huber, Christoph Eder, Markus Loibl, Richard Kujat, Michael Nerlich, Sebastian Gehmert
  Department of Trauma Surgery, University Medical Center Regensburg, Regensburg Germany
  5 min + 2 min discussion

- A-0318 Functional results post arthroscopic triangular fibrocartilage complex reconstruction in chronic
distal radioulnar joint instability
Jui-Tien Shih
Armed Forces Taoyuan General Hospital, Taoyuan, Taiwan, ROC
5 min + 2 min discussion

- **A-0680** Comparison of CT arthrography (CTA) with intrinsic ligament instability findings in wrist arthroscopy
  Aldo Villavicencio, Rene Jorquera, Pablo Orellana, Francisco Melibosky, Peter Cobb, Tomas Basauri
  Indisa Clinic, Chile
  5 min + 2 min discussion

- **A-0527** Arthroscopically-assisted four-corner fusion
  Filipa Santos Silva, Carolina Baptista, Ana Marta Coelho
  Hospital Beatriz Ângelo
  5 min + 2 min discussion

**J. EWAS-APWA symposium III - Unresolved Problems: EAST meet WEST** (11:40am-12:55pm) (75 min)
(Chairperson: Max Haerle, Greg Bain)

- Failed primary repair of TFCC (6 min + 6 min + 3 min discussion) (Andrea Atzei, Toshiyasu Nakamura)
- Painful osteochondral lesion (6 min + 6 min + 3 min discussion) (Marc Garcia-Elias, Clara Wong)
- Arthrolysis for stiff wrist: how to sustain the result (6 min + 6 min + 3 min discussion) (Riccardo Luchetti, Greg Bain)
- Proximal scaphoid nonunion (6 min + 6 min + 3 min discussion) (Christophe Mathoulin, Jeff Ecker)
- Mid-carpal Instability (6 min + 6 min + 3 min discussion) (David Hargreaves, PC Ho)

**K. Closing Remarks:** (12:55-1:00pm) (5 min) (PC Ho, Jan-Ragnar Haugstvedt)
