ADVANCED COURSE

WRIST ARTHROSCOPIC Training on Anatomical Specimen

MAY 27th

Morning

08:15 Lecture 1 Moderator: T. Nakamura

- Basic of wrist arthroscopy
- How to perform a wrist arthroscopy: instruments, installation and portal (15 min)
- Complications of wrist arthroscopy (15 min)
- Arthroscopic ganglionectomy and synovectomy (15 min)
- Radial styloectomy (15 min)

9:15 – 12:30 Practical session 1 (part1)
- Radiocarpal and midcarpal joints examination
- Removal of synovial cyst
- Radial styloectomy

Experts help students directly at their allocated tables on an anatomical specimen with simultaneous teaching, individual practical training by students (1 expert for 2 operating tables)

Afternoon

13:00 Lecture 2 Moderator: PC Ho

- Scapholunate ligament tears: problem and principles (15 min)
- Arthroscopic treatment for scaphoid fracture (15 min)
- Intraarticular radius fracture: arthroscopic reduction and fixation (15 min)

13:45 – 15:30 Practical session 2
- Basic: Scapholunate tears
  Intermediate: Scaphoid fracture (arthroscopic or open), Intraarticular distal radius fractures

Experts help students directly at their allocated tables on an anatomical specimen with simultaneous teaching, individual practical training by students (1 expert for 2 operating tables)

MAY 28th

Morning

08:30 Lecture 3 Moderator: JR Haugstvedt

- TFCC problems
  - Principles of TFCC repair (15 min)
  - TFCC: peripheral tears: diagnosis and repair (15 min)
  - TFCC: focal repair
  - Unicompartmental ulnar abutment syndrome and arthroscopic Wafer procedure (15 min)
  - Arthroscopic management of Kienbock disease (15 min)

9:30 – 12:30 Practical session 3
- Basic: TFCC peripheral repair and arthroscopic Wafer procedure
  Intermediate: DRUJ arthroscopy, TFCC focal repair

Experts help students directly at their allocated tables on an anatomical specimen with simultaneous teaching, individual practical training by students (1 expert for 2 operating tables)

Students can be separated into basic and intermediate, according to their ability of wrist arthroscopy

Afternoon

14:00 Lecture 4 Moderator: WJ Chen

- Advanced arthroscopic procedures
  - Distal radius fracture mini-open technique (15 min)
  - Thumb CMC arthroscopy and mini-light rope (15 min)
  - Arthroscopic SL reconstruction (15 min)

15:00 – 17:00 Practical session 4
- Basic: Thumb CMC arthroscopy
  Intermediate: Arthroscopic SL reconstruction

Experts help students directly at their allocated tables on an anatomical specimen with simultaneous teaching, individual practical training by students (1 expert for 2 operating tables)

Students can be separated into basic and intermediate, according to their ability of wrist arthroscopy

This programme may be subject to modifications or cancellations for timing reasons.
